## Premium

### P7505

- High brightness 5,000 lumens for hard-hitting presentations
- 1080p FHD for quality projection
- Multiple HDMI and D-Sub ports allow flexible connectivity
- Multimedia plug-n-play

“The Acer P1383W, a business projector, equally at home in a conference room or classroom, is a solid performer available at a reasonable price. It offers good resolution, and its data and video image quality proved suitable for typical presentations in our testing.”

-PCMag

“The P7505 delivers on the single most important issue for a high-resolution data projector by doing a good job with fine detail in data images.”

-PCMag

# Portable LED Projectors

Some of your best ideas happen outside the boardroom and now you can share them when they happen with Acer LED series projectors. Discuss concepts and motivate others, even without a PC, where you go. With models as slim as 1”(24.5mm), the world of self expression is in your pocket.

## Portable

### K132

- Excellent portability with HD-ready projection
- Very long LED life for reliability and cost efficiency
- MHL™ makes it a great smartphone companion
- Multiple connection options via cable and wireless

### K137i

- Palm size with 700 lumens high brightness
- Two 3W powerful SRS sound effect
- Rich multimedia support
- Wide-ranged connectivity
- Enable wireless projection

### K335

- Excellent portability with HD-ready projection
- Project directly from a USB stick or SD card – no PC required
- Very long LED life for reliability and cost efficiency
- Multiple connection options via cable and wireless

“The K335 is a very versatile, highly portable business projector with support for the most popular input options, offering a low price, long-life LED light source, good brightness and fair color reproduction. The Acer K335 should prove to be popular in the mini projector market.”
