### Ideal for deployment in educational institutions

- **EPEAT® Silver certification:** These Acer C720 models are EPEAT Silver certified, thus meeting the demand of the many school districts that require the procurement of EPEAT electronics.<sup>3</sup> Purchasing green products helps to protect our environment by reducing toxic content, extending product longevity and increasing recyclability.
- **Lower total cost of ownership:** The Google Management Console reduces the time required by IT staff to deploy and manage an entire fleet of C720s. Send apps to one or thousands of Acer Chromebooks with a single click of a button.
- **Automatic updates:** The Acer C720 automatically updates itself every six weeks, assuring that users always have the most current operating system, security features and apps.
- **Boots up fast, lasts all day:** The Acer C720 boots up in under seven seconds and never slows down. Depending on the model, the battery provides up to 8.5 hours of unplugged power, more than enough for the average school day.
- **Multiple users welcome:** Several students can safely share one Chromebook. Each person's data is encrypted automatically, preventing access by anyone else using the device.
- **Educare Bundles** (optional), exclusively for educational institutions, offer the choice of a limited warranty extension and the Acer-exclusive Total Protection Upgrade and Premium Battery Support.
