**WHO DO.**

# Taking Education to the Next Level

At Lenovo, we are committed to providing teachers and students with technology that empowers learning. Lenovo is proud to partner with Microsoft on their Shape the Future initiative, which aims to improve education by putting technology in the hands of children. Through this partnership, we are able to provide K-12 public schools with a wide range of innovative products at reduced prices, ensuring that students get access to the right tools and resources to help build a better tomorrow.

# What is Shape the Future?

In the wake of the worldwide economic downturn, many districts chose to invest in Information and Communication Technology (ICT) for their educational systems as a way to fuel future economic growth and development.

Through this initiative, Microsoft helps local and national governments achieve their goals for improving widespread access to computers and digital infrastructure, which in turn helps accelerate education reform and create a more knowledgeable 21st century workforce.

In short, by putting powerful, affordable computers into the hands of teachers and students, Shape the Future aims to create a tomorrow of great possibilities.

## PROGRAM DETAILS

### **When does this program begin?**

Now. The product announcement letter and multiple PAB numbers have been published.

### **How does the pricing work?**

Your distributor can give you the aggressive pricing. All the distributor needs to do is to confirm that your customer is on Microsoft's list of approved US Public K-12 Customers.

### **What customers qualify?**

Any US Public K-12 institution.

### **Are these prices combinable with other promotions?**

The Shape the Future PAB is NOT combinable with other PABs. However, it is combinable with other program letters (HQF letters, etc.).

# THINKPAD 11E AND YOGA 11E

Built for schools. Rugged. Versatile. Ready to educate.

Computers in schools take a lot of abuse. So Lenovo® has developed the rugged ThinkPad® 11e and ThinkPad® Yoga 11e laptops to perform and last longer, even under the roughest handling. They truly do perform with powerful Intel® processors and Windows 8 OS. Plus, these ThinkPads come with an option of Intel Education Software for students, teachers and IT staff.

## Rugged and ready for students

Designed to last with rubber bumpers around the top cover, 50% stronger corners in case of falls, and durable Dragontrail Glass display (Yoga 11e only) that prevents scratches.

## Versatile for the way students work

Choose the ThinkPad® 11e laptop, or Lenovo's versatile YOGA 11e with 4 usage modes so students can move effortlessly between creating, using and sharing content.

## Pre-loaded education software

Trusted Intel® Education Software includes applications for reading, science, math, multimedia, art and more, plus valuable tools for teachers and IT staff.
