Universal Docking Stations

Designed with your productivity in mind

Industry-leading universal docking solutions that fit right, every time.

Modern Trends Demand Innovative Solutions

In today's world, countless organizations are doing what they can to improve workforce productivity while optimizing profitability. Many are investing in universal docking stations to address several key business trends:

THIN FORM-FACTOR PCS ARE SACRIFICING HARDWARE FEATURES

The latest PC, laptop, tablet and Ultrabook™ designs are increasingly smaller and thinner—often sacrificing hardware features and essential ports.

SHORTER REFRESH CYCLES ARE INCREASING ACCESSORY COSTS

More enterprises are moving to shorter refresh cycles, often replacing employee PC platforms after just one or two years. Purchasing new proprietary docking stations with every refresh is a huge cost.

SHRINKING OFFICE SPACE IS A GROWING TREND

Today's workers no longer need to be tethered to the office to be productive. Technology enables employees to access “the office” virtually and only a fraction are at their desks full-time. Enterprises are responding by shrinking their real estate footprint, creating shared workstations and hot-desks instead; and ultimately resulting in huge cost savings.

UNIVERSAL DOCKING STATIONS ARE THE ANSWER

Universal docking stations not only offer a range of USB 3.0 ports to expand a user's workspace, they work with any PC or Mac platform, eliminating the need to purchase new docks with each refresh. Plus, they enable productivity within hoteling and hot-desking environments.

WHY TARGUS?

We're agnostic. Our universal docking stations work with virtually every PC and Mac platform offering for broad compatibility.

Customer service is priority one. We offer high-touch sales and customer support, plus an industry-leading three-year warranty.

Our free Wi-Fi AutoSwitch utility delivers a secure Gigabit Ethernet port that lets users automatically disable their wireless internet connection, speed online transmissions, save battery power and optimize the company's wireless bandwidth.

Universal USB 3.0 DV2K Docking Station with Power

ACP77USZ

Power through the day—and see the world in vivid detail—with another Targus innovation. Making its mark as the only dual video docking station with integrated power for most 90W (19V) laptops plus incredible dual 2K video resolution, this workstation is perfect for high-powered users streaming 2K video content on larger monitors.

WHY TARGUS?

- 2K video resolution**
 Goes way beyond Full HD with Dual Video ports (DVI-I and DisplayPort) supporting up to 2560 x 1600 resolution for two monitors
- Industry leadership**
 It's the only USB 3.0 2K docking station to deliver laptop power
- Ultrafast speed**
 Gigabit Ethernet connects, transfers and syncs 10x faster than standard 10/100
- Greater peace of mind**
 Industry-leading 3-year warranty
- Universal support**
 Charging tips and storage included for Asus®, Dell®, HP®, Lenovo®, Samsung® and Toshiba® and many others
- Mac® and PC compatible**

GET THE RIGHT FIT

This solution is ideal for:

- Multiple workstation users
- Hoteling/hot-desking
- Conference rooms
- 2K video content
- Monitors larger than 30"

KEY FEATURES

Higher productivity within reach

Discover savvy workstations that mean serious business. Our lineup of universal docking stations enables maximum productivity and multitasking, plus the performance to withstand even the most demanding work days.

For executives, small businesses, mobile pros or anyone who wants advanced efficiency, plus the latest technologies, there's a docking station that fits. Our comprehensive portfolio delivers fast throughput, while accessing up to two displays, 2K video resolution and six USB ports to connect to printers, plugs and other business necessities. Our docks also provide a Gigabit Ethernet connection for speedy data transfers, storage and performance.

The benefits don't stop there. Because our docking solutions support multiple laptop platforms and brands, they also lower your total cost of ownership and reduce maintenance support time. They're rich in features that make everyday life easier and make business more effective. It is a showcase of innovation that never stops working for you.

TODAY'S BIGGEST NAMES TRUST TARGUS

We're proud that Targus leads the universal docking station market with over 40% of Fortune 1000 companies using our docks.

With so many of today's leading enterprises choosing Targus to help boost productivity, we're confident that you can, too.
